ALAN WEINSTEIN  
Dade-Broward Chapter  
Miami, Florida

May 31, 1986

Dear Eng,

Dr. Norman Gaylis, a Rheumatologist from Miami and the Chairman of our Dade/Broward Chapter's Medical Advisory Board, has asked me to send on his definition of SLS to you and the LFA medical Council for your consideration in developing a suitable definition of Lupus.

Dr. Gaylis has played a significant role in our Chapter's development and continues to be available for whatever we ask him to do. He probably has the largest Lupus practice in the Miami-Fort Lauderdale area. I don't know if he is going to Calgary but if he does go, I'll ask him to introduce himself to you.

Otherwise, we have all been kept busy with various Lupus functions. We are just winding down at the Chapter level with our May 26 meeting closing out our medical program until September. We had a super response and a full house at the Nursing seminar, brochure enclosed, on May 10. We are now free to concentrate wholly on the Cleveland Convention and Board meeting. My wife, Rhoda, and I will arrive on Monday.

Looking forward to seeing you in Cleveland,

Best Regards,

Alan D. Weinstein
